

UNSDG Business Innovation Group (BIG) prioritized Global Shared Services (GSS) at a glance

1. **UN FLEET** is an independent entity which builds on WFP and UNHCR's experience in setting up and operating self-sustaining vehicle leasing programmes and leverages this expertise and experience to offer the same light vehicle provision model to all other UN agencies. The vision is to provide effective, safe, efficient, and environmentally sustainable fleet solutions to the UN System while achieving significant and sustainable cost savings.
2. The **UN Mobility** of the **UN Booking Hub**, the passenger transportation service of the UN Booking Hub, has revolutionized the way UN staff arrange their car travel and fleet managers digital transform their service delivery.
3. The **Accommodation Service** of the **UN Booking Hub**, offers a digital, scalable and customer-centric solution for UN organizations to digital transform humanitarian personnel accommodation.
4. The **Medical and Wellness Service** of the **UN Booking Hub**, offers a digital, scalable and customer-centric solution for UN organizations to digitally transform personnel access to medical and wellness services.
5. **UN Facilities (UN Booking Hub)** is a digital booking platform for UN conference rooms, offices, and accommodation, optimizing resource use and simplifying logistics.
6. **UN Digital Disposal Services (UN Booking Hub)** provides secure, traceable digital asset disposal with auction capability for surplus electronics, minimizing reputational and security risks.
7. **UN Web Buy Plus** is UN-proprietary e-catalogue and e-commerce platform developed and powered by UNOPS. UN Web Buy offers a shop window for UN contracts, where relevant product data, essential for the business decision-making process, is converted into an intuitive and user-friendly interface that features visuals and information, enabling buyers to compare and decide.
8. UNOPS's **HR Services (Non-Staff)** provides a full-cycle HR solution for non-staff—covering onboarding, benefits, contracts, and exits—ensuring consistency and compliance across operations.

9. The **HR benefits and entitlements** managed by UNDP, this service centralizes the administration of benefits and entitlements for UN personnel, reducing redundancies and ensuring that staff receive efficient, high-quality support.
10. **Payroll Services** is an end-to-end payroll process for staff and non-staff, ensuring timely payments and regulatory compliance across countries.
11. **Payment Services** is a global processing of payments to vendors, partners, and personnel with reconciliation, reporting, and fraud controls.
12. The **ERP Service (Quantum)** is hosted, cloud-based ERP solution (Quantum) for UN entities lacking internal platforms, offering secure financial and operational support.
13. **UNDP's HR – Non-staff services, Partner Personnel (PPSA)** is a centralized service for contracting, managing, and supporting partner personnel, streamlining processes and reducing HR risks.
14. **Global Asset Disposal Services** is a Field-based solution for physical asset disposal in line with UN financial rules, improving compliance and facilitating shared asset recovery.
15. The **Digital Hub of Treasury solutions** aim is to establish a single digital gateway for integrated and secure straight-through processing of payment transactions globally.
16. The **UN Digital ID** is an universal and easy to use system-wide identity for each United Nations staff, from onboarding to retirement. Having a unique identification across the UN system reduces data fragmentation and duplication, with the potential to simplify and streamline processes and transactions across all business functions between staff and organizations, and also between UN organizations themselves. As a data exchange platform, the UN Digital ID will allow staff from participating organizations to share any of their HR and other is launched, managed and sponsored by HLCM.
